Recent Work Experience

Helio Technology Worked for this VR company as a web developer and graphic designer. I helped create a service ordering web application, and designed and implemented two websites.

G9 Consulting Worked for this accounting company as a technical writer. I wrote applications for the Scientific Research and Experimental Development grant, and helped multiple companies receive over \$1million dollars in grant funds.

EngWorks Inc. Worked for this engineering company as a marketing assistant and IT support. Amongst many tasks, I helped make updates to the company website and coordinate email campaigns.

StyleLabs Inc. Worked for this digital marketing company as a graphic designer and marketing assistant. I met and managed clients, and helped streamline the success of my department - monthly managed services.
