P/W

Patrick Withams

T: 587 830 1321
E: pwithams@gmail.com
W: github.com/paddyw2

Notable Attributes

Natural problem solver and logical thinker

Passion for technology and computer science

Knowledge of MapReduce, Hadoop and machine learning

Strong in interest in software engineering

Experience with OSX, Linux and Windows

Knowledge of Java, Python, C#, C++, C, x86, ARM7, and more

Industry experience in web development

Second place in Java programming competition

Additional degree in English Literature and Philosophy - exceptional written skills

Qualified for and participated in Google Code Jam 2017

Active hobby programmer - 33 GitHub repositories

Education

Current
University of Calgary, BSc Computer Science
GPA: 3.79
Expected Graduation: December 2019

Past
University of Glasgow, BA Philosophy and English Literature
GPA: 3.4 (equivalent)
Graduated Spring 2013

CPSC Courses

Intro to CPSC I: Python (A)	Information Security and Privacy (A)
Intro to CPSC II: Java (A+)	Networks (A+)
Computer Machinery I (A+)	Large Scale Software Systems (A)
Computer Machinery II (A-)	Information Structures (A-)
Design and Analysis of Algorithms (B+)	Network Security (A+)
	Large Scale Analytics Systems and Big Data (A)
Theory of Computation (A)	Software Engineering Project (Current)

Recent Work Experience

Find it EZ Software
Currently working on a software engineering project for this code base search engine software company through the University of Calgary.

Deloitte
Worked for this professional services firm as a security analyst intern. I helped remediate a forensics lab, was involved in designing threat intelligence and analytics programs, and was exposed to phishing campaigns, forensic analysis, password cracking, and pentesting.

Helio Technology
Worked for this VR startup as a web developer and graphic designer. I helped create a service-ordering web application, and designed and implemented two websites. They are now called ZeroKey.

G9 Consulting
Worked for this accounting company as a technical writer. I wrote applications for the Scientific Research and Experimental Development grant, and helped multiple companies receive over $1million in grant funds.
